Subject: Regarding reevaluation of AJPCR

Dear Dr.

I would like to say regarding the deep evaluation of AJPCR done by Ministry of research and Higher education. We are very thankful for evaluation which will help in keeping the quality of the journal. It is a very old journal in the field of Pharmaceutical, and clinical research started in 2007. AJPCR is Scopus indexed Journal from long back. Point wise I will clear the issue which hasrisen in the evaluation are as follows:

1. Actually, in July, our out sourced editing team had changed, and the new one is working for us. Whatever changes we have sent them, they could not effectively work on correction. We ask from the authors and editing team for the correction many times to correct them. In future, we would focus on zero error mistakes, and it is our promise that we will not make any editing mistakes.
2. The screen shots given by committee seem to be very old, and this has created the wrongimage. You can revisit every tab on the website. It has a proper editorial team with address. To be in the Scopus, we need to follow all norms and regulation of publication and which we have been following. We strictly follow regulation of COPE to keep a high standard of publication. Since we are a follower of COPE we cannot keep such errors, please revisit our website to reevaluate.

The screenshot shows a web browser window displaying the contact page of the Asian Journal of Pharmaceutical and Clinical Research. The page features a green header with the journal's name and ISSN numbers (Print ISSN: 0974-2441, Online ISSN: 2455-3891). A navigation menu includes Home, About, User Home, Search, Current, Archives, Editorial Board, Submission, Instructions to Authors, and Contact Us. The main content area is titled 'Contact Us' and provides contact information for the Editorial Office and the publisher, Innovare Academic Sciences Pvt Ltd. The Editorial Office is located at B-11, In front of Beema Hospital, Nayi Awadi, Mandsaur - 458001, MP, India, with an email address of editor@ajpcr.com. The publisher is located at T-8, Mahaveer Apartment, Near SIRT College, Ayodhya Bypass, Bhopal 462041, MP, India, with an email address of iajournals@gmail.com. A user login section on the left indicates the user is logged in as 'anurekha' and provides links to My Journals, My Profile, and Log Out. The page also displays an Impact (Cites per doc) of 0.40. The browser's address bar shows the URL https://innovareacademics.in/journals/index.php/AJPCR/pages/view/contact. The Windows taskbar at the bottom shows the date and time as 10/23/2017, 3:48 PM.

3. We are very old Scopus indexed journal, and we have updated new address. Please don't say dubious journal on the basis of address because we have shifted our old office to new office and address has changed. It is peer reviewed open access journal. Editing and formatting are outsourced to make minimum mistakes. We are asking many times from author to correct their article.

We request you to revisit our website and consider for reevaluation so wrong image of AJPCR can be removed.

Thanking you

With Regards

Dr. Anurekha Jain
